

TRANSFORMING IN MOTION

Design for Continuous Evolution

APRIL 28 - 30, 2026

PITTSBURGH, PA

ODF

The era of “design, implement, redesign” is over. In today’s world of perpetual change and disruption, organizations must transform in motion, learning and adapting as they perform. They must continuously and fluidly evolve in response to constantly shifting pressures.

We’ll explore ways to build organizations with resilience, renewal, and reflexes at their core. We will share new thinking, practical tools, and the capabilities needed to design and implement dynamic, responsive systems where change is less a threat and more a source of momentum. If you believe that organizations should – and can – evolve while they work, this conference is for you.
